Hey, Luis:

I'm sending you information that Marketing requested; for the Value Chain I must send you my updated cost, which I have already requested. With the topic of the use of the brand, *Servicios (Nutresa)* is already on top of it.

But, the other 2 points I believe we could support each other in your distribution model.

Thanks

Subject: Re: RM: Meeting with Luis Alfonso Arango – Cordialsa USA

Hey, I have several doubts that I would like to know in case of requesting support from Marketing:

- Do you have the Product Value Chain; what is the PVP to the consumer in the USA?
- What are the prices of the competitors? How much is the product currently selling for (in some cases we have seen that are products are arriving but we do not carry them)
- How big is the potential of the Colombian population in these states being calculated?

The use of the brand in the United States, if I remember correctly, has been lost at some time because we did not have evidence of the commercial use in recent years, but it's better that *Servicios* confirm this.

Greetings.

Hernando Ramos Moreno---10/03/2014 10:11:21 p.m.---Good morning, Carlos. Through the instruction of Diego Medina, we had a meeting last week with Luis A

Good morning, Carlos.

Through the instruction of Diego Medina, we had a meeting last week with Luis Alfonso Arango, Manager of Cordialsa USA, who is interested in selling Zenú Antioqueñan Beans x 380 and 580 Gr. to a nostalgic market of Colombians in some geographic areas, such as Florida, New York and California.

For this purpose, we have some tasks, in which we require your support:

- We need to send a Technical Specification Sheet in English to present it to the FDA --> Support of Research and Development. I'm attaching the Sheet we sent in 2010, in case it continues to be valid.

- We need to send 4 samples of the Beans x 380 (Gr.) and 4 samples of the Beans x 580 (Gr.) with the labels in English to present them to the FDA --> Support of Research and Development.

Thanks for your support and collaboration.

Subject: Meeting with Luis Alfonso Arango – Cordialsa USA

Good morning, Fer:

I want to share with you the notes from the meeting we had yesterday with Luis Alfonso Arango, from Cordialsa USA.

- The project to export Beans had been suspended at the time of the change in the image and a change of the lithographed can to the label, due to the need of texts in English.
- We need to send a Technical Specification Sheet in English to present it to the FDA --> Support of Research and Development.
- We need to send 4 samples of the Beans x 380 (Gr.) and 4 samples of the Beans x 580 (Gr.) with the labels in English to present them to the FDA --> Support of Research and Development.
- Validate the use of the Zenú brand in the USA -> support from *Servicios Nutresa*
- Review in SAP the billing of products in English to send samples with no commercial value and to be able to have the system ready to bill Cordialsa, as soon as it is approved by the FDA.
- Send updated product costs, to generate a value chain; however, the focus is to reach a niche of the Colombian market that pays for the product, although it is a PVP higher than that of the local market.

We have the pending tasks to manage them internally and achieve an export of the product to the Latin market in the USA.
